* The number of mortgage loans and the unpaid principal balance ("UPB") of such mortgage loans indicated in this table is based on preliminary estimates with respect to the mortgaged properties located in one of the 71 counties listed by the Federal Emergency Management Agency ("FEMA") as a major disaster area and in which FEMA has authorized individual assistance to assist homeowners as a result of Hurricane Florence and/or Michael as of October 30, 2018. The actual number of mortgage loans eligible for disaster forbearance will be determined by the servicer(s).

** Special Flood Hazard Area ("SFHA") is based on data reported to Freddie Mac by lenders at the time of loan origination. The percentage of Current UPB in a Special Flood Hazard Area (SFHA %) is the loans in the FEMA individual assistance area declared for Florence and/or Michael that are also in the Special Flood Hazard Area.

*** The "% of Pool" is less than 0.1%. Freddie Mac has chosen not to disclose the "SFHA %" due to the small loan count in such area. At least one of the loans identified for the STACR 2017-SPI1 transaction is located within an SFHA.
