The assumptions underlying the Information, including structure and the composition of the Reference Pool (as defined below), may be modified from time to time to reflect changed circumstances. This document should be read in conjunction with the Preliminary Private Placement Memorandum dated March 11, 2019 (the “Preliminary PPM”). In the event of any inconsistency between the information included in this document and the Preliminary PPM, the Preliminary PPM shall be considered to supersede this document. This document and the Preliminary PPM will be superseded by any subsequent term sheets, “roadshow materials”, updated pool information and/or any subsequent preliminary private placement memorandum, as well as by a final private placement memorandum relating to the securities discussed herein. Any decision to invest in the securities described herein should be made after reviewing the Preliminary PPM and the final private placement memorandum, conducting such investigations as the investor deems necessary and consulting the investor’s own legal, accounting, and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the securities.

PRELIMINARY TERM SHEET

The investment described in this term sheet is a complex financial product. These securities are complex instruments intended for sale only to sophisticated investors who understand and assume the risks involved with the purchase thereof. The risks associated with the securities may significantly reduce an investor's expected yield and expected return of principal, and/or reduce an investor's ability to sell or obtain market value information about the securities. Investors should independently evaluate the risks associated with the securities and consult their own professional advisors. These risks may include, but may not be limited to the following:

- The performance of the Reference Pool may be correlated with economic or other factors that may diminish the value of the securities.
- The performance of the Reference Pool and the value of the securities may be largely dependent on the quality of the origination, performance history, and servicing of the mortgage loans included in the Reference Pool.
- The value of the securities may be diminished by market conditions unrelated to the performance of the securities.

To the extent that investors choose to utilize third party predictive models in connection with considering an investment in the securities, neither Freddie Mac nor the Initial Purchasers make any representation or warranty regarding the accuracy, completeness or appropriateness of any information or reports generated by such models, including, without limitation, whether the securities or the underlying collateral will perform in a manner consistent therewith.

This document shall not constitute an underwriting commitment, an offer of financing, an offer to sell, or the solicitation of an offer to buy any securities described herein, which shall be subject to the Initial Purchasers' internal approvals. No transaction or services related thereto is contemplated without the Initial Purchasers' subsequent formal agreement. The Initial Purchasers are not acting as a fiduciary, advisor or agent.

Prior to entering into any transaction, you should determine, without reliance upon any Initial Purchaser or its affiliates, the economic risks and merits, as well as the legal, tax and accounting characterizations and consequences of the transaction, and independently determine that you are able to assume these risks. In this regard, by acceptance of these materials, you acknowledge that you have been advised that (a) the Initial Purchasers are not in the business of providing legal, tax or accounting advice, (b) you understand that there may be legal, tax or accounting risks associated with the transaction, (c) you should receive legal, tax and accounting advice from advisors with appropriate expertise to assess relevant risks and (d) you should apprise senior management in your organization as to the legal, tax and accounting advice (and, if applicable, risks) associated with this transaction and the Initial Purchasers' disclaimers as to these matters.

The Information may not be forwarded or provided by you to any other person. An investor or potential investor in the securities (and each employee, representative, or other agent of such person or entity) may disclose to any and all persons, without limitation, the tax treatment and tax structure of the transaction (as defined in United States Treasury Regulation Section 1.6011-4) and all related materials of any kind, including opinions or other tax analyses, that are provided to such person or entity. However, such person or entity may not disclose any other information relating to this transaction unless such information is related to such tax treatment and tax structure.

Capitalized terms used but not defined herein shall have the respective meanings given to them in the Preliminary PPM.

Information is preliminary and subject to final Reference Pool and legal review. The analyses, calculations and valuations herein are based on certain assumptions and data provided by third parties that may vary from the actual characteristics of the final Reference Pool. Investors should rely on the information contained in the Preliminary PPM.

- The Class Principal Balances, Notional Principal Amounts and Class Notional Amounts presented in this preliminary term sheet are approximate. Expected weighted average lives and principal windows, as applicable, with respect to the Notes above are based on (i) the assumption that the Notes are redeemed on the Early Redemption Date occurring in March 2029 and (ii) certain modeling assumptions, including that prepayments occur at the pricing speed of 10% CPR, calculated from the Closing Date, no Credit Events occur, no Modification Events occur and the Notes pay on the 25<sup>th</sup> day of each calendar month beginning in April 2019. The balances shown for the MAC Notes represent the approximate maximum original Class Principal Balances or Notional Principal Amounts of such Classes, as applicable.

- (19) The Class A-H Reference Tranche, Class M-1H Reference Tranche, Class M-2AH Reference Tranche, Class M-2BH Reference Tranche, Class B-1AH Reference Tranche, Class B-1BH Reference Tranche, Class B-2AH Reference Tranche, Class B-2BH Reference Tranche and Class B-3H Reference Tranche will not have corresponding Notes and will be referenced only in connection with making calculations of principal payments required to be made on the Notes and reductions and increases in the Class Principal Balances of the Notes.
- (20) The Class M-1 Notes, Class M-2A Notes, Class M-2B Notes, Class B-1A Notes, Class B-1B Notes, Class B-2A Notes and Class B-2B Notes will have corresponding Reference Tranches for the purpose of making calculations of principal payments required to be made by the Trust and reductions and increases in the Class Principal Balances of the Notes.

In making an election to use any alternative method or index, the Administrator may take into account a variety of factors, including then-prevailing industry practices or other developments. The Administrator may also, for any period apply an adjustment factor to any alternative method or index as it deems appropriate to better achieve comparability to the current index and other industry practices. In addition, in the event that one-month LIBOR used to calculate the Class Coupons of the Notes for any Accrual Period is less than zero, the Class Coupons on the Class M-2I Notes, Class M-2AI Notes, Class M-2BI Notes, Class B-1AI Notes and Class B-2AI Notes may be subject to downward adjustment such that the aggregate amount of interest payable to such MAC Notes and the other MAC Notes in the related Combinations would not exceed the aggregate Interest Payment Amount otherwise payable to the related Exchangeable Notes for which such Classes were exchanged (or related MAC Notes in the case of the related Combinations listed in Schedule I).

PRELIMINARY TERM SHEET

**Summary**

On the Closing Date, the Freddie Mac STACR Trust 2019-DNA2 (the “Trust” or “Issuer”) will issue the Class M-1 Notes, Class M-2A Notes, Class M-2B Notes, Class B-1A Notes, Class B-1B Notes, Class B-2A Notes and Class B-2B Notes (the “Original Notes” and, together with the MAC Notes, the “Notes”). The Trust is expected to use the aggregate net proceeds realized from the sale of the Notes to purchase Eligible Investments, maturing not later than 60 days succeeding the date on which such Eligible Investments are purchased. From time to time, the Trust will acquire additional Eligible Investments with proceeds realized upon the maturity or redemption or other prepayment of existing Eligible Investments. The Trust will use the net investment earnings (including the aggregate amount of realized principal gains less any realized principal losses) on the Eligible Investments, together with the Credit Premium Payments made under the Credit Protection Agreement, to pay interest on the Notes on each Payment Date. The Original Notes will be issued at par and will be uncapped LIBOR-based floaters.

On the Closing Date, the Trust will enter into the Credit Protection Agreement with the Federal Home Loan Mortgage Corporation (“Freddie Mac” or the “Sponsor”) as the credit protection buyer. Under the Credit Protection Agreement, Freddie Mac will be required to make Credit Premium Payments and Credit Protection Reimbursement Payments, if any, to the Trust. In exchange for such payments, the Trust will, subject to the satisfaction of certain conditions, make Credit Protection Payments, if any, to Freddie Mac upon the occurrence of certain specified Credit Events and Modification Events relating to a pool of residential mortgage loans (the “Reference Pool”).

On each Payment Date on which the Trust is required to make a Credit Protection Payment under the Credit Protection Agreement, the Trust will allocate proceeds of Eligible Investments to such payment before allocating any proceeds of Eligible Investments to pay amounts owed on the Notes. This will result in a Tranche Write-down being allocated to the Reference Tranches corresponding to a Class of Notes in an amount equal to the Credit Protection Payment. Any such amount allocated to a Reference Tranche that corresponds to a Class of Notes will result in a corresponding reduction of the Class Principal Balance of such Class of Notes.

The Credit Protection Agreement will permit netting of the Credit Protection Payment due on any Payment Date against the Credit Premium Payment and Credit Protection Reimbursement Payment due on the business day immediately prior to such Payment Date. As a result, only one party will actually make a payment to the other in any given calendar month.

The Reference Pool will consist of the Reference Obligations owned or guaranteed by Freddie Mac. The transaction is designed to furnish credit protection to Freddie Mac with respect to certain Reference Obligations that are either (i) mortgage loans that were securitized into Freddie Mac’s PCs between July 1, 2018 and September 30, 2018 and were originated on or after January 1, 2015 and that meet the Eligibility Criteria, including certain loan-to-value thresholds and have no Underwriting Defects, Major Servicing Defects or Minor Servicing Defects that were known to Freddie Mac as of February 4, 2019 or that were subsequently discovered through the Third-Party Diligence Provider’s due diligence review as described herein and (ii) subject to the CFTC granting Freddie Mac’s request to amend the No-Action Letter as described in the Preliminary PPM and the satisfaction of certain other conditions, any Enhanced Relief Refinance Reference Obligations included in the Reference Pool in the future in replacement of the corresponding original Reference Obligations that are refinanced under the Enhanced Relief Refinance Program.

The Notes will be scheduled to mature on the Payment Date in March 2049, but will be subject to mandatory redemption prior thereto if certain events occur, including the early termination of the Credit Protection Agreement (including in connection with an optional redemption on any Payment Date on or after the Payment Date in March 2029 or an event of default or other termination event thereunder).

Although the Original Notes are limited recourse obligations of the Trust, subordinate to the claims of the Sponsor under the Credit Protection Agreement, the payment characteristics have been designed so that the Notes are paid principal similarly to securities in a senior/subordinate private label residential mortgage backed securities structure. Accordingly, subordinate interests will not receive allocations in respect of Stated Principal on the applicable Payment Date unless a target credit enhancement test is satisfied and certain performance tests based on cumulative losses and delinquencies are satisfied. However, unlike securities in a senior/subordinate private label residential mortgage-backed securitization, the principal payments required to be paid by the Trust on the Original Notes (and any related MAC Notes entitled to principal payments) will be based in part on principal that is due and collected by Freddie Mac on the Reference Obligations, rather than on scheduled payments due on the Reference Obligations as further described herein. In other words, to the extent

that there is a delinquent mortgagor who misses a payment (or makes only a partial scheduled payment) on a Reference Obligation, the Trust will not make principal payments on the Original Notes (and any related MAC Notes entitled to principal payments) based on the amount that was due on such Reference Obligation, but, rather, the Trust will only make principal payments on the Original Notes (and any related MAC Notes entitled to principal payments) based in part on principal actually collected on such Reference Obligation (subject to satisfaction of the Minimum Credit Enhancement Test, the Cumulative Net Loss Test and the Delinquency Test as defined herein). In addition to the payments of principal and interest that the Notes are entitled to receive on each Payment Date, the Notes may also be entitled to a payment on the Maturity Date based on the estimated fair value of future subsequent recoveries on the Credit Event Reference Obligations.

For the avoidance of doubt, under no circumstances will the actual cash flow from the Reference Obligations be paid to the holders of the Notes. The Trust will make required payments to the Notes only from Trust Assets and only after payments required to be paid by the Trust to the Sponsor under the Credit Protection Agreement have been made. Monthly payments of accrued interest will be payable to the holders of the Notes.

If ICE's interest settlement rate does not appear on the Designated Page by 11:00 a.m. (London time) on the LIBOR Adjustment Date, or if the Designated Page is not then available, One-Month LIBOR for that date will be the most recently published interest settlement rate. In making an election to use any alternative method or index, the Administrator may take into account a variety of factors, including then-prevailing industry practices or other developments. The Administrator may also, for any period apply an adjustment factor to any alternative method or index as it deems appropriate to better achieve comparability to the current index and other industry practices.

the date it was paid in full, and no more than one 30-day delinquency in the 12-month period immediately preceding the date it was paid in full, and (iv) is secured by a mortgaged property with a current estimated property value that is reasonably believed by Freddie Mac to result in eligibility under the Enhanced Relief Refinance Program.

On the Enhanced Relief Refinance Program Release Date with respect to each original Reference Obligation that was paid in full, the following will apply:

(a) if Freddie Mac confirms that the payment in full was made in connection with the Enhanced Relief Refinance Program, such original Reference Obligation will be removed from the Reference Pool and the resulting Enhanced Relief Refinance Reference Obligation will replace such original Reference Obligation in the Reference Pool (which removal and replacement will not constitute a Reference Pool Removal);

(b) if Freddie Mac confirms that the payment in full was not made in connection with the Enhanced Relief Refinance Program, such original Reference Obligation will be removed from the Reference Pool (which removal will constitute a Reference Pool Removal); and

(c) if neither such confirmation can be made in (a) or (b) above, such original Reference Obligation will be removed from the Reference Pool (which removal will constitute a Reference Pool Removal).

**The Credit Protection Agreement**

**Credit Protection Agreement**

On the Closing Date, the Trust will enter into the 1992 Master Agreement (Multicurrency – Cross Border) dated the Closing Date, as supplemented by the related schedule and confirmation, incorporating by reference the 2014 ISDA Credit Derivatives Definitions (collectively, the “Credit Protection Agreement”) with Freddie Mac as the credit protection buyer. The Credit Protection Agreement will reference the Reference Pool.

Under the Credit Protection Agreement, Freddie Mac will be required to pay to the Trust the applicable Credit Premium Payment and Credit Protection Reimbursement Payment, if any, on the business day prior to each Payment Date.

Under the Credit Protection Agreement, the Trust will be required, subject to the satisfaction of certain conditions, to pay applicable Credit Protection Payments to Freddie Mac based on the Credit Events and Modification Events that occurred during the related Reporting Period. The Credit Protection Agreement will permit netting of the Credit Protection Payment owed to Freddie Mac by the Trust on any Payment Date against any Credit Premium Payment and Credit Protection Reimbursement Payment owed to the Trust by Freddie Mac on the business day immediately prior to such Payment Date. As a result, only one party (i.e., either the Trust or Freddie Mac) will actually make a payment to the other in any given calendar month.

**Credit Protection Agreement Payments**

*Conditions Precedent.* The respective obligations of Freddie Mac and the Trust to pay any amount due under the Credit Protection Agreement will be subject to the following conditions precedent (i) no event of default (or event that with the giving of notice or lapse of time or both would become an event of default) will have occurred and be continuing under the Credit Protection Agreement; and (ii) no CPA Early Termination Date will have been designated. However, these conditions precedent will not apply to any amount payable in connection with the CPA Early Termination Date. For the avoidance of doubt, payments in connection with the CPA Early Termination Date will not include a mark-to-market termination payment.

*Payments by Freddie Mac.* Under the Credit Protection Agreement, subject to netting against the Credit Protection Payment to become due on the related Payment Date, on the business day prior to each Payment Date, Freddie Mac will be required to pay the applicable Credit Premium Payment and the applicable Credit Protection Reimbursement Payment, if any, to the Trust. In the event Freddie Mac fails to pay the Credit Premium Payment and/or Credit Protection Reimbursement Payment when due and fails to cure any such nonpayment for a period of 30 days after receipt of written notice, such failure will constitute an event of default under the Credit Protection Agreement that will entitle the Trust to designate a CPA Early Termination Date. The early termination of the Credit Protection Agreement will result in a redemption of the Notes on the related Early Redemption Date.

*Payments by the Trust.* Under the Credit Protection Agreement, subject to netting against the Credit Premium Payment and Credit Protection Reimbursement Payment payable by Freddie Mac on the business day immediately preceding any Payment Date following the occurrence of a Credit Event or Modification Event with respect to such Payment Date on which a Tranche Write-down Amount has been allocated to reduce the Class Principal Balance of any outstanding Class of Notes and delivery to the Indenture Trustee of the applicable “Reference Pool File” and “Monthly P&I Constant File” (or other report which indicates that a Credit Protection Payment is due), the Credit Protection Agreement will require the Trust to pay to Freddie Mac the applicable Credit Protection Payment on such Payment Date. In the event the Trust fails to pay the Credit Protection Payment when due and fails to cure any such nonpayment for a period of 30 days after receipt of written notice, such failure will constitute an event of default under the Credit Protection Agreement that will entitle Freddie Mac to designate a CPA Early Termination Date. The early termination of the Credit Protection Agreement will result in a redemption of the Notes on the related Early Redemption Date.

PRELIMINARY TERM SHEET

The Indenture will require the Trust to pay any Credit Protection Payment payable to Freddie Mac on a Payment Date prior to making any payments owed by the Trust to the Notes on such Payment Date.

With respect to government money market funds, the maturity date shall be determined under SEC Rule 2a-7 promulgated under the Investment Company Act.

**Collateral**

and all income from the investment of funds therein, (d) the Account Control Agreement, (e) the Investment Management Agreement, (f) all accounts, general intangibles, chattel paper, instruments, documents, goods, money, investment property, deposit accounts, letters of credit and letter-of-credit rights, consisting of, arising from, or relating to, any of the foregoing, and (g) all proceeds, accessions, profits, income, benefits, substitutions and replacements, whether voluntary or involuntary, of and to any of the property of the Issuer described in the preceding clauses. Such grant will be made, in trust, to secure (a) the payment of all amounts payable by the Issuer to the Protected Party under the Credit Protection Agreement and (b) the Notes equally and ratably without prejudice, priority or distinction between any Class and any other Class, except as expressly provided in the Indenture; provided that such grant for the benefit of the Notes is subordinate to the grant for the benefit of the Protected Party.

In addition, the Issuer will grant to the Indenture Trustee on the Closing Date, for the benefit of the holders of the Notes all of the Issuer's right, title and interest in, to and under, whether now owned or existing, or hereafter acquired or arising, (a) the Credit Protection Agreement and all payments to the Issuer thereunder or with respect thereto, (b) all accounts, general intangibles, chattel paper, instruments, documents, goods, money, investment property, deposit accounts, letters of credit and letter-of-credit rights, consisting of, arising from, or relating to, any of the foregoing, and (c) all proceeds, accessions, profits, income, benefits, substitutions and replacements, whether voluntary or involuntary, of and to any of the property of the Issuer described in the preceding clauses.

<b>Account Control Agreement</b>	The Account Control Agreement between the Trust, the Indenture Trustee and the Custodian.
<b>Custodian Account</b>	The Custodian Account established pursuant to the Indenture and the Account Control Agreement.
<b>Distribution Account</b>	The Eligible Account designated as the "Distribution Account" and established in the name of the Indenture Trustee pursuant to the Indenture in which the following will be deposited (a) investment income earned on the Eligible Investments, (b) the proceeds from the liquidation of Eligible Investments, as applicable, and (c) Credit Premium Payments, Credit Protection Reimbursement Payments and Credit Protection Payments that become due and payable.
<b>Early Redemption Date</b>	The CPA Early Termination Date.
<b>CPA Early Termination Date</b>	A Payment Date that is designated as an early termination date pursuant to the Credit Protection Agreement following the occurrence of (i) an event of default under the Credit Protection Agreement or (ii) a CPA Early Termination Event.

The Credit Protection Agreement permits, but does not require, the non-defaulting party (in the case of an event of default under the Credit Protection Agreement), either party (in the case of an Illegality), the Burdened Party (in the case of a Tax Event Upon Merger), any Affected Party (in the case of a Tax Event or a CPA Additional Termination Event in respect of which there is more than one Affected Party) or the party which is not the Affected Party (in the case of a CPA Additional Termination Event in respect of which there is only one Affected Party) to terminate the Credit Protection Agreement upon the occurrence of an event of default under the Credit Protection Agreement or a CPA Early Termination Event. With respect to a CPA Additional Termination Event resulting from the occurrence of an acceleration of the maturity of the Notes in accordance with the Indenture, there are two Affected Parties. Accordingly, Freddie Mac and/or the Trust will be entitled to designate a CPA Early Termination Date with respect thereto. However, with respect to every other CPA Additional Termination Event the Trust is the only Affected Party and accordingly, Freddie Mac (and not the Trust) will be the only party entitled to designate a CPA Early Termination Date with respect thereto. See "*The Agreements — The Credit Protection Agreement — CPA Scheduled Termination Date and CPA Early Termination Date*" in the Preliminary PPM.

PRELIMINARY TERM SHEET

The noteholders are not a party to the Credit Protection Agreement and may direct the Indenture Trustee to act or refrain from taking action only pursuant to the terms of the Indenture. Under the Indenture, noteholders do not have the authority to accelerate the maturity of the Notes or to direct the Indenture Trustee to take action unless and until an Indenture Event of Default occurs. However, if an Indenture Event of Default occurs and is continuing and the Notes have been declared due and payable and such declaration and the consequences of such Indenture Event of Default and acceleration have not been rescinded and annulled, the holders of a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges) may direct the Indenture Trustee to designate a CPA Early Termination Date in accordance with the Credit Protection Agreement.

The events of default under the Credit Protection Agreement include: (a) a payment default by Freddie Mac or the Trust under the Credit Protection Agreement lasting for at least 30 days after notice, (b) a default by Freddie Mac in respect of Freddie Mac's payment obligations for Expenses under the Administration Agreement (subject to any applicable grace periods and the application of the related Expense Cap) which such defaulted payment is an amount equal to or greater than \$10,000, (c) certain insolvency-related events applicable to Freddie Mac or the Trust (provided that the current appointment of the Federal Housing Finance Agency as Freddie Mac's conservator will not constitute an event of default under the Credit Protection Agreement) and (d) a merger or analogous event by the Trust or Freddie Mac without a corresponding assumption of the Trust's or Freddie Mac's obligations under the Credit Protection Agreement.

**Expense Cap**

The maximum Expenses that will be reimbursed in any consecutive 12-month period, as follows:

- a) with respect to the Indenture Trustee, Custodian, Investment Manager and Exchange Administrator, individually and collectively, the aggregate amount of \$100,000, provided that, in the event the Indenture Trustee and the Exchange Administrator are affiliates, then the portion of the Expense Cap applicable to the Indenture Trustee will be \$50,000 and the portion of the Expense Cap applicable to the Custodian, Exchange Administrator and Investment Manager individually and collectively will be \$50,000; and
- b) with respect to the Owner Trustee, the aggregate amount of \$100,000;

provided that, Expenses incurred by the Indenture Trustee or the Owner Trustee related to or resulting from an Indenture Event of Default will not be subject to the Expense Cap. For the avoidance of doubt, Excess Expenses will be reimbursed in the next subsequent month in which the Expense Cap is not exceeded in the immediately preceding 12-month period.

**Expenses**

With respect to any Payment Date, an amount equal to the sum of all related fees, charges, indemnity amounts, costs and other amounts payable or reimbursable to each of the Indenture Trustee, the Custodian, the Investment Manager, the Exchange Administrator and the Owner Trustee, but excluding the Fees.

- (4) Freddie Mac reasonably determines that a financial accounting, tax, banking, insurance or regulatory (including regulatory accounting) requirement or event not contemplated by Freddie Mac on the Closing Date has occurred, which requirement or event could have a material adverse effect upon Freddie Mac.
- (5) Freddie Mac reasonably determines, after consultation with a nationally recognized and reputable law firm, that any amendment, supplement or other modification of any Basic Document or any waiver of any provision thereof would materially and adversely affect Freddie Mac’s interests, but only if Freddie Mac has not provided its written consent to such amendment, supplement, modification or waiver.

**Indemnifiable Tax**

Any Tax other than a Tax that would not be imposed in respect of a payment under the Credit Protection Agreement but for a present or former connection between the jurisdiction of the government or taxation authority imposing such Tax and the recipient of such payment or a person related to such recipient (including, without limitation, a connection arising from such recipient or related person being or having been a citizen or resident of such jurisdiction, or being or having been organized, present or engaged in a trade or business in such jurisdiction, or having or having had a permanent establishment or fixed place of business in such jurisdiction, but excluding a connection arising solely from such recipient or related person having executed, delivered, performed its obligations or received a payment under, or enforced, the Credit Protection Agreement), which will not include any U.S. federal withholding tax imposed or collected pursuant to Sections 1471 through 1474 of the Code, any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code (a "FATCA Withholding Tax"). **Reference Obligations** The Reference Obligations are mortgage loans that meet the Eligibility Criteria and were securitized into Freddie Mac's PCs between July 1, 2018 and September 30, 2018 and were originated on or after January 1, 2015. Subject to the CFTC granting Freddie Mac's request to amend the No-Action Letter as described in the Preliminary PPM and the satisfaction of certain other conditions, upon the refinancing of a Reference Obligation under the Enhanced Relief Refinance Program, the resulting Enhanced Relief Refinance Reference Obligation will be deemed a Reference Obligation and will be included in the Reference Pool in the place of the original refinanced Reference Obligation following the Enhanced Relief Refinance Program Release Date, notwithstanding that such Enhanced Relief Refinance Reference Obligation may not meet all the Eligibility Criteria set forth above.

The "Initial Cohort Pool" is a pool of certain mortgage loans that were securitized into Freddie Mac PCs between July 1, 2018 and September 30, 2018 and were originated on or after January 1, 2015 and (i) are fully amortizing, fixed-rate, one- to four-unit, first lien mortgage loans, which have an original term of 241 to 360 months; (ii) do not have an original loan-to-value ratio that (x) is less than or equal to 60% or (y) exceeds 80%; and (iii) were not originated under Freddie Mac's relief refinance programs, including HARP.

**Reference Pool** Appendix A attached hereto sets forth some of the material characteristics of the Reference Pool.

**Documentation Type** Freddie Mac requires the seller to obtain verifications and documentation for each source of qualifying income and assets identified by the mortgagor in the application. Freddie Mac has two levels of documentation, Streamlined Accept and Standard:

- (a) Streamlined Accept Documentation. A seller may follow this type of documentation procedure for mortgage loans that are evaluated by Loan Product Advisor<sup>SM</sup> (“LPA”) and receive a Streamlined Accept Documentation designation. Under Streamlined Accept Documentation, qualifying income for a salaried mortgagor would require documentation that includes a verification of employment, a year-to-date paystub or evidence of 30 days of income, and W-2 form(s) for the most recent year. For assets that are listed on the application and in a checking account the seller must provide a bank statement covering the most recent one month if those assets are required to qualify the applicant for the mortgage loan. For mortgage loans evaluated by Desktop Underwriter (“DU”) or another approved Automated Underwriting System (“AUS”), the seller may follow the documentation procedures required by the AUS, but such documentation procedures cannot be less stringent than Freddie Mac’s Streamlined Accept Documentation procedures.
- (b) Standard Documentation. A seller is required to follow this documentation procedure for all manually underwritten mortgage loans and for mortgage loans that are evaluated by LPA and receive a Standard Documentation designation. Under Standard Documentation, for qualifying income for a salaried mortgagor the seller must provide documentation that includes a verification of employment, a year-to-date paystub or evidence of 30 days of income, and W-2 form(s) for the most recent two years. For assets that are listed on the application and are in a checking account the seller must provide a bank statement covering the most recent two months if those assets are required to qualify the applicant for the mortgage loan.

- (b) as of the origination date such Reference Obligation was secured by collateral that was inadequate; or
- (c) as of the origination date repayment in full on such Reference Obligation from the related mortgagor could not be expected.

For the avoidance of doubt, any Reference Obligation with minor technical violations or missing documentation, which in each case Freddie Mac determines to be an acceptable Reference Obligation, will not result in an Unconfirmed Underwriting Defect.

**Underwriting Defect** With respect to any Payment Date and any Reference Obligation for which Freddie Mac has determined the existence of an Unconfirmed Underwriting Defect, the occurrence of any of the following:

- (a) such Reference Obligation is repurchased by the related seller or servicer during the related Reporting Period;
- (b) in lieu of repurchase, an alternative remedy (such as indemnification) is mutually agreed upon by both Freddie Mac and the related seller or servicer during the related Reporting Period;
- (c) Freddie Mac in its sole discretion determines during the related Reporting Period that such Reference Obligation is no longer acceptable to Freddie Mac; or
- (d) the party responsible for the representations and warranties and/or servicing obligations or liabilities with respect to the Reference Obligation becomes subject to a bankruptcy, an insolvency proceeding or a receivership.

**Unconfirmed Servicing Defect** With respect to any Reference Obligation, the existence of the following, as determined by Freddie Mac in its sole discretion:

- (a) there is a violation of the servicing guidelines and other requirements in the Guide (as modified by the terms of the related servicer's contract, including any related TOBs); and
- (b) Freddie Mac has issued a notice of defect, a repurchase letter or a repurchase alternative letter related to such servicing breach.

For the avoidance of doubt, any Reference Obligation with minor technical violations, which in each case Freddie Mac determines to be an acceptable Reference Obligation, may not result in an Unconfirmed Servicing Defect.

**Minor Servicing Defect** With respect to each Payment Date and any Reference Obligation for which Freddie Mac has determined the existence of an Unconfirmed Servicing Defect, the occurrence of a remedy, other than by repurchase or make-whole payment, that is mutually agreed upon by both Freddie Mac and the related servicer that results in a recovery of the damages sustained by Freddie Mac on such Reference Obligation as a result of such Unconfirmed Servicing Defect.

PRELIMINARY TERM SHEET

**Major Servicing Defect**

With respect to each Payment Date and any Reference Obligation for which Freddie Mac has determined the existence of an Unconfirmed Servicing Defect, the occurrence of any of the following:

- (a) Repurchase or make-whole payment by the related servicer resulting in a full recovery of losses incurred by Freddie Mac during the related Reporting Period; or
- (b) the party responsible for the representations and warranties and/or servicing obligations or liabilities with respect to the Reference Obligation becomes subject to a bankruptcy, an insolvency proceeding or a receivership.

Reference Obligations covered under servicing settlements will not result in Major Servicing Defects.

**Quality Control**

In connection with its quality control review for mortgage loans securitized into Freddie Mac's PCs between July 1, 2018 and September 30, 2018 and originated on or after January 1, 2015 (the "Freddie QC Review"), Freddie Mac reviewed 3,572 mortgage loans out of 89,834 mortgage loans in the Initial Cohort Pool (approximately 4.0% of the Initial Cohort Pool by loan count). Of the 3,572 mortgage loans subject to the Freddie QC Review, 1,998 mortgage loans were randomly selected (the "Random Sample QC Selection"), and 1,574 mortgage loans were chosen using a targeted selection process (the "Targeted Sample QC Review"). Of the Random Sample QC Selection, 1,486 mortgage loans (approximately 74.4% of the Random Sample QC Selection by loan count) were only subject to a credit review (the "Credit Review"), 500 mortgage loans (approximately 25.0% of the Random Sample QC Selection by loan count) were only subject to a review for compliance with certain laws that may result in assignee liability and for compliance with certain laws that restrict points and fees (the "Compliance Review") and 12 mortgage loans (approximately 0.6% of the Random Sample QC Selection by loan count) were subject to both a Credit Review and a Compliance Review (the "Dual Credit and Compliance Review"). Due to Freddie Mac's standing funding arrangements with sellers, loan files other than the Available Sample (as defined below) were not available for the third-party review. Investors should note that any mortgage loans identified in the Freddie QC Review or in the review conducted by the third-party diligence provider that were found to have Underwriting Defects or Major Servicing Defects were removed from the Reference Pool, but those found to have data discrepancies or exceptions that do not result in an Underwriting Defect or a Major Servicing Defect or a violation of Eligibility Criteria will be included in the Reference Pool. For a further description of the results of these reviews, see the related sections set forth under "*The Reference Obligations*" in the Preliminary PPM.

**Servicing Remedy Management Team**

A group under Freddie Mac's servicing quality assurance department, that provides clarity on the process for categorizing loan-level servicing defects based on servicing violations, assists servicers with the corrections of such defects and issues loan-level remedies for servicing violations.

PRELIMINARY TERM SHEET

**Representation  
and Warranty  
Sunset  
Provisions**

The Reference Obligations are subject to representations and warranties made by the sellers. Freddie Mac may have recourse to a seller to the extent there is a breach of a representation and warranty made by that seller. However, Freddie Mac has granted, or may grant, relief to the sellers from their obligations for breaches of representations and warranties under certain limited circumstances. For example, in 2017, Freddie Mac announced that it will provide sellers with Collateral Representation and Warranty Relief, which is immediate relief from certain repurchase obligations for representations and warranties relating to property value, condition and marketability for Mortgage Loans which are processed through Loan Advisor. Loan Advisor Suite® (“Loan Advisor”) is Freddie Mac’s end-to-end technology solution that assesses credit, capacity and collateral to help sellers validate the quality of the loans they originate and which meet the eligibility requirements set forth in the Guide. To the extent a seller receives Collateral Representation and Warranty Relief for any Mortgage Loan in the Reference Pool, Freddie Mac will not have recourse to the applicable seller for breaches related to property value, condition and marketability of the corresponding Reference Obligation.

Further and to the extent any Reference Obligation is not eligible for Collateral Representation and Warranty Relief, Freddie Mac will not have recourse to sellers and servicers for breaches of representations or warranties relating to (i) the underwriting of the mortgagor (including loan terms, credit history, employment, income and assets and other financial information used for qualifying the mortgagor), (ii) the underwriting of the Mortgaged Property (*e.g.*, the description and valuation of the Mortgaged Property) or (iii) the underwriting of the project in which the Mortgaged Property is located (*e.g.*, a planned unit development (“PUD”) or condominium project), if any of the following conditions is met:

- Following the date Freddie Mac purchased the Reference Obligation (the “Settlement Date”), the mortgagor (1) made the first 36 monthly payments due with no more than two 30-day delinquencies, and no 60-day or greater delinquencies, and (2) was not 30 or more days delinquent with respect to the 36th monthly payment; provided, however, any of the first 36 monthly payments that are not made by a mortgagor during a forbearance period granted by Freddie Mac in connection with a natural disaster, will not be considered delinquent, in which case, Freddie Mac will continue to have recourse for a breach of such representations and warranties until the later of the payment of the 36th monthly payment or the Mortgage Loan is made current at the expiration of the forbearance period;
- Following the Settlement Date, the Reference Obligation was subjected to Freddie Mac’s quality control review and was determined to satisfactorily comply with the Guide and any applicable TOBs; or
- Following the Settlement Date, the Reference Obligation became subject to an agreement whereby the related seller and Freddie Mac settled claims for outstanding and future breaches of origination representations and warranties.

To the extent that none of the above-referenced conditions are satisfied, the representations and warranties will remain in effect, and Freddie Mac will continue to have recourse to the related seller and servicer for breaches of any such representations and warranties.

In any event, a seller or servicer will not be relieved from the enforcement of breaches of its representations and warranties on any Reference Obligation with respect to the following “life-of-loan” matters:

- (i) compliance with the Federal Home Loan Mortgage Corporation Act (the “Freddie Mac Act”);
- (ii) misstatements, misrepresentations and omissions;
- (iii) data inaccuracies;
- (iv) clear title/first-lien enforceability;

PRELIMINARY TERM SHEET

- (v) compliance with laws and responsible lending practices;
- (vi) single-family mortgage product eligibility; and
- (vii) systemic fraud.

Further information regarding each of these “life-of-loan” exclusions is found in the Freddie Mac Single-Family Seller/Servicer Guide (the “Guide”). Freddie Mac publishes guidance to its sellers and servicers through its Guide, lender announcements and lender letters to provide clarity to its sellers and servicers regarding its interpretation of each of these exclusions, including guidance on how it intends to enforce these exclusions, and the relief of a seller’s obligations for breaches of representations and warranties as described above. This guidance is subject to change at Freddie Mac’s discretion. Future changes to such guidance and interpretations may be applied retroactively and therefore could be applied to the Reference Obligations.

**Representation  
and  
Warranties  
Settlements**

In recent years, Freddie Mac has entered into settlements with certain sellers to resolve existing and potential representation and warranties repurchase claims on portfolios of mortgage loans sold to Freddie Mac and it may do so in the future. Any such settlement could involve potential representation and warranties claims on Reference Obligations. These settlements typically require Freddie Mac to release the applicable seller from certain repurchase obligations for violations of the Guide and applicable TOBs. Accordingly, Freddie Mac, generally, will not submit for quality control review any mortgage loans that become subject to such settlement.

**Pre-Offering  
Due Diligence  
Review**

In connection with the issuance of the Notes, a third-party diligence provider was engaged to conduct a pre-offering credit, compliance, data integrity, and valuation review of a sample from 2,028 of the Reference Obligations (the “Available Sample”). The Available Sample consists of (i) mortgage loans that were previously selected for review by Freddie Mac as part of its Random Sample QC Selection and (ii) any additional mortgage loans that were subsequently subjected to the Targeted Sample QC Review. A random sample of 413 of the proposed Reference Obligations, representing approximately 20.4% of the Available Sample (by loan count) and approximately 0.47% of the entire Reference Pool (by loan count), was selected (the “Diligence Sample”) from the Available Sample for the third-party review. Investors should note that any mortgage loans identified in the Freddie QC Review or in the review conducted by the third-party diligence provider that were found to have Underwriting Defects, Major Servicing Defects or Minor Servicing Defects were removed from the Reference Pool, but those found to have data discrepancies or exceptions that do not result in an Underwriting Defect, Major Servicing Defect or Minor Servicing Defect or violation of Eligibility Criteria will be included in the Reference Pool. For a further description of the results of these reviews, see the related sections set forth under “*The Reference Obligations*” in the Preliminary PPM.

PRELIMINARY TERM SHEET

**Reference Pool  
Removal**

The removal of a Reference Obligation from the Reference Pool after issuance of the Notes because:

- (i) the Reference Obligation becomes a Credit Event Reference Obligation;
- (ii) the Reference Obligation is paid in full (except as provided below with regard to a refinancing under the Enhanced Relief Refinance Program);
- (iii) the identification and final determination, through Freddie Mac's quality control process, of an Underwriting Defect or a Major Servicing Defect relating to such Reference Obligation;
- (iv) the discovery of a violation of the Eligibility Criteria for such Reference Obligation;
- (v) the Reference Obligation is seized pursuant to any special eminent domain proceeding brought by any federal, state or local government instrumentality with the intent to provide relief to financially-distressed mortgagors with negative equity in the underlying mortgage loan; or
- (vi) the related mortgaged property is located in an area declared by FEMA to be a major disaster area and in which FEMA had authorized individual assistance to homeowners in such area as a result of Hurricane Florence or Hurricane Michael (or any other hurricane that impacts such related mortgaged property prior to the Closing Date) and such Reference Obligation becomes delinquent and the related servicer reports that such Reference Obligation is in disaster forbearance before or in the Reporting Period related to the Payment Date in April 2019.

A Reference Obligation will not be removed from the Reference Pool if it undergoes a temporary or permanent modification and it does not meet any other criteria in the prior sentence to be removed.

Each Reference Obligation required to be removed from the Reference Pool shall be so removed:

- (a) in the case of any Reference Obligation required to be removed pursuant to clause (i) or (ii) above, as of the Payment Date related to the Reporting Period during which (i) or (ii) above occurred with respect to such Reference Obligation, after giving effect to the payment of all Credit Protection Payments required to be paid on such Payment Date; or
- (b) in the case of any Reference Obligation required to be removed pursuant to clause (iii), (iv), (v) or (vi) above, as of the date in the related Reporting Period on which (iii), (iv), (v) or (vi) occurred with respect to such Reference Obligation.

Notwithstanding the above, in the event that a Reference Obligation that was previously removed from the Reference Pool is discovered to have been removed in error, such Reference Obligation will be reinstated into the Reference Pool.

No Reference Obligation will be removed from the Reference Pool as a result of the determination of a Minor Servicing Defect, Unconfirmed Servicing Defect or Unconfirmed Underwriting Defect (unless such Unconfirmed Servicing Defect or Unconfirmed Underwriting Defect becomes a Major Servicing Defect or Underwriting Defect) and any such Reference Obligation will remain eligible to become subject to an Underwriting Defect or a Major Servicing Defect.

Subject to the CFTC granting Freddie Mac's request to amend the No-Action Letter as described in the Preliminary PPM and the satisfaction of certain other conditions, if a Reference Obligation is refinanced under the Enhanced Relief Refinance Program and meets the Enhanced Relief Refinance Program Criteria, such Reference Obligation will not be removed from the Reference Pool until the Enhanced Relief Program Refinance Release Date. Prior to the CFTC granting Freddie Mac's request to amend the No-Action Letter and the satisfaction of certain other conditions, if a Reference Obligation is refinanced under the Enhanced Relief Refinance Program, such Reference Obligation will be removed from the Reference Pool and will be treated as a prepayment.

PRELIMINARY TERM SHEET

**Modifications**

Reference Obligations will not be removed from the Reference Pool if they undergo a temporary or permanent modification and they do not meet any other criteria to be a Reference Pool Removal.

Any negative adjustment to the principal balance of a Reference Obligation as the result of a modification will be treated as Stated Principal. However, if such Reference Obligation becomes a Credit Event Reference Obligation, the related negative adjustment will be included in the Credit Event Net Loss.

Any positive adjustment to the principal balance of a Reference Obligation as the result of a modification will be treated as an offset to Stated Principal.

A “Modification Event” with respect to any Reference Obligation is a forbearance or mortgage rate modification relating to such Reference Obligation, in each case as reported by the applicable servicer to Freddie Mac during the related Reporting Period. For the avoidance of doubt, a refinancing of a Reference Obligation under Freddie Mac’s Enhanced Relief Refinance Program and, if permitted as described in the Preliminary PPM, the replacement thereof in the Reference Pool with the resulting Enhanced Relief Refinance Reference Obligation will not constitute a Modification Event; provided, however, an Enhanced Relief Refinance Reference Obligation that is replaced in the Reference Pool and subsequently experiences a forbearance or mortgage rate modification relating to such Enhanced Relief Refinance Reference Obligation will constitute a Modification Event.

**Credit Event Reference Obligation**

With respect to each Payment Date on or before the CPA Termination Date, any Reference Obligation in the Reference Pool where a Credit Event has occurred with respect to such Reference Obligation and is reported during the related Reporting Period. A “Credit Event” with respect to any Payment Date on or before the CPA Termination Date and any Reference Obligation is the first to occur of any of the following events with respect to such Reference Obligation being reported by the applicable servicer to Freddie Mac during the related Reporting Period:

- (a) a short sale with respect to the related Mortgaged Property is settled,
- (b) a seriously delinquent mortgage note is sold prior to foreclosure,
- (c) the mortgaged property that secured the related mortgage note is sold to a third party at a foreclosure sale,
- (d) an REO disposition occurs, or
- (e) the related mortgage note is charged-off.

With respect to any Credit Event Reference Obligation, there can only be one occurrence of a Credit Event; provided that one additional separate Credit Event can occur with respect to each instance of such Credit Event Reference Obligation becoming a Reversed Credit Event Reference Obligation. For the avoidance of doubt, a refinancing of a Reference Obligation under Freddie Mac’s Enhanced Relief Refinance Program and, if permitted as described in the Preliminary PPM, the replacement thereof in the Reference Pool with the resulting Enhanced Relief Refinance Reference Obligation will not constitute a Credit Event.

**Reversed Credit Event Reference Obligation**

With respect to each Payment Date, a Reference Obligation formerly in the Reference Pool that became a Credit Event Reference Obligation in a prior Reporting Period is found in the related Reporting Period to have an Underwriting Defect or a Major Servicing Defect or a data correction that invalidates the previously determined Credit Event.

**Credit Event UPB**

With respect to any Credit Event Reference Obligation, the unpaid principal balance (“UPB”) thereof as of the end of the Reporting Period related to the Payment Date on which it became a Credit Event Reference Obligation.

- (g) positive adjustments in the aggregate UPB of all Reference Obligations as the result of loan modifications, reinstatements into the Reference Pool of Reference Obligations that were previously removed from the Reference Pool in error, or data corrections.

In the event the sum of the amounts in clauses (f) and (g) above exceeds the sum of the amounts in clauses (a) through (e), above, the sum of clauses (a) through (g) above for the applicable Payment Date will be deemed to be zero, and the Class Notional Amount for the Class A-H Reference Tranche will be increased by the amount that the sum of the amounts in clauses (f) and (g) above exceeds the sum of the amounts in clauses (a) through (e) above. In the event that Freddie Mac were ever to employ a policy that permitted or required principal forgiveness as a loss mitigation alternative that would be applicable to the Reference Obligations, any principal that may be forgiven with respect to a Reference Obligation will be treated as a negative adjustment in the UPB of such Reference Obligation pursuant to clause (d) above.

For the avoidance of doubt, any Origination Rep and Warranty/Servicing Breach Settlement will only relate to breaches of either (i) origination/selling representations and warranties or (ii) servicing obligations, but not both.

**Origination Rep and Warranty/Servicing Breach Settlement Amount**

With respect to the Payment Date in the month after the calendar month in which an Origination Rep and Warranty/Servicing Breach Settlement occurs, the lesser of:

The order of priority in which the Modification Gain Amount, if any, will be allocated on each Payment Date on or prior to the Maturity Date, is as follows:

- (a) *first*, to the Class M-1 and Class M-1H Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-1 Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Payment Amount on the Class M-1 Notes on all prior Payment Dates;
- (b) *second*, to the Class M-2A and Class M-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-2A Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Payment Amount on the Class M-2A Notes on all prior Payment Dates;
- (c) *third*, to the Class M-2B and Class M-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-2B Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Payment Amount on the Class M-2B Notes on all prior Payment Dates;

**Modification Loss  
Priority**

On each Payment Date on or prior to the Maturity Date, the following will be computed prior to the allocation of the Modification Loss Amount:

- (a) the “Preliminary Principal Loss Amount”, which is equal to the Principal Loss Amount computed without giving effect to clause (d) of the definition of Principal Loss Amount;
- (b) the “Preliminary Tranche Write-down Amount”, which is equal to the Tranche Write-down Amount computed using the Preliminary Principal Loss Amount instead of the Principal Loss Amount;
- (c) the “Preliminary Tranche Write-up Amount”, which is equal to the Tranche Write-up Amount computed using the Preliminary Principal Loss Amount instead of the Principal Loss Amount; and
- (d) the “Preliminary Class Notional Amount” of each Reference Tranche, which is equal to the Class Notional Amount of such Reference Tranche immediately prior to such Payment Date, after the application of the Preliminary Tranche Write-down Amount in accordance with the same priorities set forth in the Allocation of Tranche Write-down Amount, and after the application of the Preliminary Tranche Write-up Amount in accordance with the same priorities set forth in the Allocation of Tranche Write-up Amount.

On each Payment Date on or prior to the Maturity Date, the Modification Loss Amount, if any, for such Payment Date, will be allocated to the Reference Tranches in the following order of priority:

- (a) *first*, to the Class B-3H Reference Tranche, until the amount allocated to the Class B-3H Reference Tranche is equal to the Class B-3H Reference Tranche Interest Accrual Amount for such Payment Date;
- (b) *second*, to the Class B-3H Reference Tranche, until the amount allocated to the Class B-3H Reference Tranche is equal to the Preliminary Class Notional Amount of the Class B-3H Reference Tranche for such Payment Date;
- (c) *third*, to the Class B-2B and Class B-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class B-2B Reference Tranche is equal to the Class B-2B Notes Interest Accrual Amount for such Payment Date;
- (d) *fourth*, to the Class B-2A and Class B-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class B-2A Reference Tranche is equal to the Class B-2A Notes Interest Accrual Amount for such Payment Date;

PRELIMINARY TERM SHEET

**Modification Loss  
Priority (cont.)**

Any amounts allocated to the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A or Class B-2B Reference Tranches in the *fifteenth, twelfth, eleventh, eighth, seventh, fourth or third* priority above on any Payment Date will result in a corresponding reduction of the Interest Payment Amount of the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A or Class B-2B Notes, as applicable (in each case without regard to any exchanges of Exchangeable Notes for MAC Notes) for such Payment Date. The Class B-3H Reference Tranche is assigned a Class Coupon solely for purposes of calculations in connection with the allocation of Modification Loss Amounts to the Mezzanine Reference Tranches and Junior Reference Tranches, and any such amounts allocated in the *first or second* priority above will not result in a corresponding reduction of the Interest Payment Amount or Class Principal Balance of any Class of Notes.

With respect to any Exchangeable Notes or MAC Notes that have been exchanged for the related MAC Notes, as applicable, any Modification Loss Amount that is allocable in the *third, fourth, seventh, eighth, eleventh, twelfth or fifteenth* priority above on any Payment Date to such related exchanged Exchangeable Notes will be allocated to reduce the Interest Payment Amounts, as applicable, of the related Exchangeable Notes or MAC Notes, as applicable, for such Payment Date, pro rata, based on their Interest Accrual Amounts. Any amounts allocated to any of the Reference Tranches in the *second, fifth, sixth, ninth, tenth, thirteenth, fourteenth or sixteenth* priority above will be included in the Principal Loss Amount for the related Payment Date.

PRELIMINARY TERM SHEET

**Allocation of Tranche  
Write-down Amounts**

On each Payment Date on or prior to the Maturity Date, the Tranche Write-down Amount, if any, for such Payment Date will be allocated, *first*, to reduce any Overcollateralization Amount (as defined herein) for such Payment Date, until such Overcollateralization Amount is reduced to zero, and, *second*, to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

- (a) *first*, to the Class B-3H Reference Tranche;
- (b) *second*, to the Class B-2B and Class B-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (c) *third*, to the Class B-2A and Class B-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (d) *fourth*, to the Class B-1B and Class B-1BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (e) *fifth*, to the Class B-1A and Class B-1AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (f) *sixth*, to the Class M-2B and Class M-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (g) *seventh*, to the Class M-2A and Class M-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (h) *eighth*, to the Class M-1 and Class M-1H Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date; and
- (i) *ninth*, to the Class A-H Reference Tranche, but only in an amount equal to the excess, if any, of the remaining unallocated Tranche Write-down Amount for such Payment Date over the Principal Loss Amount for such Payment Date attributable to clause (d) of the definition of “Principal Loss Amount”.

Because the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A and Class B-2B Notes correspond to the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A and Class B-2B Reference Tranches, respectively, any Tranche Write-down Amounts allocated to such Classes of Reference Tranches pursuant to the hypothetical structure will result in a corresponding reduction in the Class Principal Balances of the corresponding Classes of Notes, as applicable (in each case without regard to any exchanges of Exchangeable Notes for MAC Notes). If Exchangeable Notes have been exchanged for MAC Notes, all Tranche Write-down Amounts that are allocable to such exchanged Exchangeable Notes will be allocated to reduce the Class Principal Balances or Notional Principal Amounts, as applicable, of such MAC Notes (or any MAC Notes further exchanged for such MAC Notes pursuant to an applicable Combination) in accordance with the exchange proportions applicable to the related Combination.

With respect to each Payment Date, the Class Notional Amount for the Class A-H Reference Tranche will be increased by the excess, if any, of the Tranche Write-down Amount for such Payment Date over the Credit Event Amount for such Payment Date.

PRELIMINARY TERM SHEET

**Allocation of Tranche Write-up Amounts**

On each Payment Date on or prior to the Maturity Date, the Tranche Write-up Amount, if any, for such Payment Date will be allocated to increase the Class Notional Amount of each Class of Reference Tranche in the following order of priority until the cumulative Tranche Write-up Amounts allocated to each such Class of Reference Tranche is equal to the cumulative Tranche Write-down Amounts previously allocated to such Class of Reference Tranche on or prior to such Payment Date:

- (a) *first*, to the Class A-H Reference Tranche;
- (b) *second*, to the Class M-1 and Class M-1H Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (c) *third*, to the Class M-2A and Class M-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (d) *fourth*, to the Class M-2B and Class M-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (e) *fifth*, to the Class B-1A and Class B-1AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (f) *sixth*, to the Class B-1B and Class B-1BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (g) *seventh*, to the Class B-2A and Class B-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (h) *eighth*, to the Class B-2B and Class B-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date; and
- (i) *ninth*, to the Class B-3H Reference Tranche.

To the extent that the Tranche Write-up Amount on any Payment Date exceeds the Tranche Write-up Amount allocated on such Payment Date pursuant to clauses (a) through (i) above, such excess (the “Write-up Excess”) will be available as overcollateralization to offset any Tranche Write-down Amounts on future Payments Dates prior to such Tranche Write-down Amounts being allocated to reduce the Class Notional Amounts of the Reference Tranches. On each Payment Date, the “Overcollateralization Amount” equals (a) the aggregate amount of Write-up Excesses for such Payment Date and all prior Payment Dates, minus (b) the aggregate amount of Write-up Excesses used to offset Tranche Write-down Amounts on all prior Payments Dates.

Because the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A and Class B-2B Notes correspond to the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A and Class B-2B Reference Tranches, respectively, any Tranche Write-up Amounts allocated to such Classes of Reference Tranches pursuant to the hypothetical structure will result in a corresponding increase in the Class Principal Balances of the corresponding Classes of Notes, as applicable (in each case without regard to any exchanges of Exchangeable Notes for MAC Notes). If Exchangeable Notes have been exchanged for MAC Notes, all Tranche Write-up Amounts that are allocable to such exchanged Exchangeable Notes will be allocated to increase the Class Principal Balances or Notional Principal Amounts, as applicable, of such MAC Notes (or any MAC Notes further exchanged for such MAC Notes pursuant to an applicable Combination) in accordance with the exchange proportions applicable to the related Combination.

**Senior Percentage**

With respect to any Payment Date, the percentage equivalent of a fraction, the numerator of which is the Class Notional Amount of the Senior Reference Tranche immediately prior to such Payment Date and the denominator of which is the aggregate UPB of the Reference Obligations in the Reference Pool at the end of the previous Reporting Period.

PRELIMINARY TERM SHEET

**Subordinate Percentage** With respect to any Payment Date, 100% minus the Senior Percentage for such Payment Date.

**Recovery Principal** With respect to any Payment Date, the sum of:

- (a) the excess, if any, of the Credit Event Amount for such Payment Date over the Tranche Write-down Amount for such Payment Date; and
- (b) the Tranche Write-up Amount for such Payment Date.

**Minimum Credit Enhancement Test** With respect to any Payment Date, a test that will be satisfied if the Subordinate Percentage is greater than or equal to 4.50%.

**Cumulative Net Loss Test** With respect to any Payment Date, a test that will be satisfied if the Cumulative Net Loss Percentage does not exceed the applicable percentage indicated below:

April 2025 to March 2026	0.70%
April 2026 to March 2027	0.80%
April 2027 to March 2028	0.90%
April 2028 to March 2029	1.00%
April 2029 to March 2030	1.10%
April 2030 to March 2031	1.20%
April 2031 and thereafter	1.30%

**Distressed Principal Balance** With respect to any Payment Date, the sum, without duplication, of the UPB of Reference Obligations that meet any of the following criteria:

- (a) Reference Obligations that are 60 days or more delinquent;
- (b) Reference Obligations that are in foreclosure, bankruptcy or REO status; or
- (c) Reference Obligations that were modified in the 12 months preceding the end of the related Reporting Period.

**Delinquency Test** With respect to any Payment Date, a test that will be satisfied if:

- (a) the sum of the Distressed Principal Balance for the current Payment Date and each of the preceding five Payment Dates, divided by six, or in the case of any Payment Date prior to the sixth Payment Date after the Closing Date, the sum of the Distressed Principal Balance for the current Payment Date and each of the preceding Payment Dates, divided by the number of Payment Dates since the Closing Date

is less than

- (b) 50% of the amount by which:
  - (i) the product of (x) the Subordinate Percentage and (y) the aggregate UPB of the Reference Obligations as of the preceding Payment Date; exceeds
  - (ii) the Principal Loss Amount for the current Payment Date.

PRELIMINARY TERM SHEET

**Senior Reduction Amount**

With respect to any Payment Date:

- (a) if any of the Minimum Credit Enhancement Test, Cumulative Net Loss Test or Delinquency Test is not satisfied, the sum of:
  - (i) 100% of the Stated Principal for such Payment Date; and
  - (ii) 100% of Recovery Principal for such Payment Date; or
- (b) if the Minimum Credit Enhancement Test, Cumulative Net Loss Test and Delinquency Test are satisfied, the sum of:
  - (i) the Senior Percentage of the Stated Principal for such Payment Date; and
  - (ii) 100% of Recovery Principal for such Payment Date.

**Subordinate Reduction Amount**

With respect to any Payment Date, the sum of the Stated Principal and Recovery Principal for such Payment Date, less the Senior Reduction Amount.

**Allocation of Senior Reduction Amount**

On each Payment Date prior to the Maturity Date, after allocation of the Tranche Write-down Amount or Tranche Write-up Amount, if any, for such Payment Date, the Senior Reduction Amount will be allocated to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

- (a) *first*, to the Class A-H Reference Tranche;
- (b) *second*, to the Class M-1 and Class M-1H Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (c) *third*, to the Class M-2A and Class M-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (d) *fourth*, to the Class M-2B and Class M-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (e) *fifth*, to the Class B-1A and Class B-1AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (f) *sixth*, to the Class B-1B and Class B-1BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;

- (h) *eighth*, to the Class B-2B and Class B-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date; and
- (i) *ninth*, to the Class B-3H Reference Tranche.

PRELIMINARY TERM SHEET

**Allocation of  
Subordinate Reduction  
Amount**

On each Payment Date prior to the Maturity Date, after allocation of the Senior Reduction Amount and the Tranche Write-down Amount or Tranche Write-up Amount, if any, for such Payment Date, the Subordinate Reduction Amount will be allocated to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

- (a) *first*, to the Class M-1 and Class M-1H Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (b) *second*, to the Class M-2A and Class M-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (c) *third*, to the Class M-2B and Class M-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (d) *fourth*, to the Class B-1A and Class B-1AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (e) *fifth*, to the Class B-1B and Class B-1BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (f) *sixth*, to the Class B-2A and Class B-2AH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (g) *seventh*, to the Class B-2B and Class B-2BH Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date;
- (h) *eighth*, to the Class B-3H Reference Tranche; and
- (i) *ninth*, to the Class A-H Reference Tranche.

Because the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A and Class B-2B Notes correspond to the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A and Class B-2B Reference Tranches, respectively, any Senior Reduction Amount and/or Subordinate Reduction Amount, as applicable, allocated to the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A or Class B-2B Reference Tranche pursuant to the hypothetical structure will result in a requirement of Freddie Mac to make a corresponding payment of principal to the Class M-1, Class M-2A, Class M-2B, Class B-1A, Class B-1B, Class B-2A or Class B-2B Notes, as applicable (in each case without regard to any exchanges of Exchangeable Notes for MAC Notes). If Exchangeable Notes have been exchanged for MAC Notes, all principal amounts that are payable by the Trust on such exchanged Exchangeable Notes will be allocated to and payable on such MAC Notes (including any MAC Notes further exchanged for such MAC Notes pursuant to an applicable Combination) that are entitled to principal in accordance with the exchange proportions applicable to the related Combination.

PRELIMINARY TERM SHEET

The Notes

- (a) with respect to each Class of Original Notes, the maximum dollar amount of principal to which the holders of each Class of Original Notes are entitled as of such Payment Date, such amount being equal to the original Class Principal Balance of such Class of Notes, *minus* the aggregate amount of principal paid by the Trust on such Class of Notes on such Payment Date and all prior Payment Dates, *minus* the aggregate amount of Tranche Write-down Amounts allocated to reduce the Class Principal Balance of such Class of Notes on such Payment Date and on all prior Payment Dates, and *plus* the aggregate amount of Tranche Write-up Amounts allocated to increase the Class Principal Balance of such Class of Notes on such Payment Date and on all prior Payment Dates (in each case, without regard to any exchanges of Exchangeable Notes for MAC Notes); and
- (b) with respect to each outstanding Class of MAC Notes that is entitled to principal, an amount equal to the outstanding Class Principal Balance or aggregate outstanding Class Principal Balance as of such Payment Date of the portion or portions of the related Class or Classes of Exchangeable Notes that are Original Notes and were exchanged for such MAC Note (or related MAC Notes in the case of the related Combinations listed in Schedule I); provided, that with respect to each of the Class M-2RB, Class M-2SB, Class M-2TB and Class M-2UB Notes, if the outstanding Class Principal Balance of the Class M-2B Notes with respect to any Payment Date is zero and the outstanding Notional Principal Amount of the Class M-2AI Notes for such Payment Date is greater than zero, then each of the Class M-2RB, Class M-2SB, Class M-2TB and Class M-2UB Notes will no longer have a Class Principal Balance, but will instead have a Notional Principal Amount equal to the portion of the Class M-2AI Notes exchanged for such Class M-2RB, Class M-2SB, Class M-2TB or Class M-2UB Notes, as applicable.

**Interest Accrual Amount**

With respect to each outstanding Class of Notes (and, for purposes of calculating allocations of any Modification Gain Amounts or Modification Loss Amounts, the Class B-3H Reference Tranche) during each Accrual Period an amount equal to:

- (iii) the percentage equivalent of a fraction, the numerator of which is the actual number of days in the related Accrual Period and the denominator of which is 360.

PRELIMINARY TERM SHEET

**Interest Payment  
Amount**

With respect to each outstanding Class of Notes and any Payment Date, an amount equal to the related Interest Accrual Amount for such Class of Notes, less any Modification Loss Amount for such Payment Date allocated to reduce the Interest Payment Amount for such Class of Notes for such Payment Date pursuant to the Modification Loss Priority, or plus any Modification Gain Amount for such Payment Date allocated to increase the Interest Payment Amount of such Class of Notes for such Payment Date pursuant to the Modification Gain Priority.

Interest payments will be paid from earnings on Eligible Investments and the Credit Premium Payments from Freddie Mac under the Credit Protection Agreement.

No payments of interest will be made to the Reference Tranches.

**Principal**

On the Maturity Date the Trust will pay 100% of the Class Principal Balance as of such date for each Class of Original Notes outstanding (without regard to any exchanges of Exchangeable Notes for MAC Notes).

On all other Payment Dates, the Trust will pay principal to holders of each outstanding Class of Original Notes (in each case without regard to any exchanges of Exchangeable Notes for MAC Notes) in an amount equal to the portion of Senior Reduction Amount and/or Subordinate Reduction Amount, as applicable, allocated to the corresponding Reference Tranche on such Payment Date. If on the Maturity Date or any Payment Date a Class of MAC Notes that is entitled to principal is outstanding, all principal amounts that are payable by the Trust on Exchangeable Notes that were exchanged for such MAC Notes (or any MAC Notes further exchanged for other MAC Notes pursuant to an applicable Combination) will be allocated to and payable on such MAC Notes in accordance with the exchange proportions applicable to the related Combination. The Class M-2AI, Class M-2BI, Class M-2I, Class B-1AI and Class B-2AI Notes (the “Interest Only MAC Notes”) are not entitled to receive payments of principal; provided, that the Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes and Class M-2UB Notes will also be “Interest Only MAC Notes” with respect to any Payment Date where the outstanding Class Principal Balance of the Class M-2B Notes is zero and the outstanding Notional Principal Amount of the Class M-2AI Notes is greater than zero. For calculating interest payments, each Class of outstanding Interest Only MAC Notes has a “Notional Principal Amount” as of any Payment Date equal to the outstanding Class Principal Balance (or, in the case of the Class M-2RB, Class M-2SB, Class M-2TB and Class M-2UB Notes, if being treated as Interest Only MAC Notes, the outstanding Notional Principal Amount) as of such Payment Date of the portion of the related Class of Exchangeable Notes (or related MAC Notes in the related Combinations listed in Schedule I) that was exchanged for such Interest Only MAC Note.

No payments of principal will be made to the Reference Tranches.

PRELIMINARY TERM SHEET

provided, however, that no Indenture Event of Default with respect to any Notes will result under either *clause (a) or (b)* above if the Collateral has been realized upon in full and all amounts available to be paid in respect of such Collateral have been distributed in accordance with the provisions of the Indenture.

**Freddie Mac Default**

An Indenture Event of Default resulting from the failure of Freddie Mac to perform its obligations under the Credit Protection Agreement.

PRELIMINARY TERM SHEET

**Rights Upon Indenture  
Event of Default**

*Acceleration and Maturity; Rescission and Annulment.* If an Indenture Event of Default occurs and is continuing (other than an Indenture Event of Default described in *clause (d), (e), (f) or (g)* above), the Indenture Trustee, if a responsible officer thereof has actual knowledge of or has received notice of such Indenture Event of Default, may, or at the direction of not less than a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges) will, declare the Class Principal Balance of all the Notes to be due and payable on the next succeeding Payment Date, and upon any such declaration such principal, together with all accrued and unpaid Interest Payment Amounts on the Notes, and other amounts payable under the Indenture, will become due and payable on the next succeeding Payment Date. If an Indenture Event of Default described in *clause (d), (e), (f) or (g)* above occurs and is continuing, the Class Principal Balance of all of the Notes, together with all accrued and unpaid Interest Payment Amounts on the Notes and other amounts payable under the Indenture, will automatically become due and payable without any declaration or other act on the part of the Indenture Trustee or any holder.

At any time after such a declaration of acceleration of maturity has been made (except with respect to an Indenture Event of Default described in *clause (d), (e), (f) or (g)* above) and before a judgment or decree for payment of the money due has been obtained by the Indenture Trustee as provided in the Indenture, a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges), by written notice to the Indenture Trustee, may rescind and annul such declaration and its consequences if:

(i) the Issuer has paid or deposited with the Indenture Trustee a sum sufficient to pay:

(A) all overdue amounts payable on or in respect of the Notes (other than amounts due solely as a result of the acceleration),

(B) to the extent that payment of interest on such amount is lawful, interest on such overdue amounts at a rate equal to the applicable Class Coupon,

(C) any accrued and unpaid amounts payable by the Issuer pursuant to the Credit Protection Agreement, and

(ii) the Indenture Trustee has determined that all Indenture Events of Default, other than the nonpayment of the principal of or interest on the Notes that have become due solely by such acceleration, have been cured and a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges), by written notice to the Indenture Trustee, has agreed with such determination or waived such Indenture Events of Default.

No such rescission and annulment shall affect any subsequent Indenture Event of Default or impair any right consequent thereon.

*Collection of Indebtedness and Suits for Enforcement by Indenture Trustee.* If an Indenture Event of Default occurs and is continuing, the Indenture Trustee at the direction of a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges) will proceed to protect and enforce its rights and the rights of each of Freddie Mac and the holders by such appropriate proceedings as such holders direct, whether for the specific enforcement of any covenant or agreement in the Indenture or in aid of the exercise of any power granted therein, or to enforce any other proper remedy or legal or equitable right vested in the Indenture Trustee by the Indenture or by law; *provided, however*, that no such Proceedings may be instituted with respect to the Eligible Investments or any proceeds thereof unless an Indenture Event

PRELIMINARY TERM SHEET

of Default under *clause (f)* above has occurred and is continuing and *provided further* that the Indenture Trustee will have no duty or obligation to take such action unless such holders offer indemnification satisfactory to the Indenture Trustee. Absent receipt of any such written direction by a responsible officer of the Indenture Trustee, the Indenture Trustee will have no duty or obligation to take any action in respect of an Indenture Event of Default. In any proceedings brought by the Indenture Trustee on behalf of the holders, the Indenture Trustee will be held to represent all the holders of the Notes and it shall not be necessary to make any holder a party to any such proceeding.

*Remedies; Liquidation of Collateral.* If an Indenture Event of Default occurs and is continuing, and the Notes have been declared due and payable and such declaration and the consequences of such Indenture Event of Default and acceleration have not been rescinded and annulled, the Issuer agrees that the Indenture Trustee will, upon direction of a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges), to the extent permitted by applicable law, exercise one or more of the following rights, privileges and remedies:

- (i) institute proceedings for the collection of all amounts then payable on the Notes or otherwise payable under the Indenture, whether by declaration or otherwise, enforce any judgment obtained, and collect from the Collateral any monies adjudged due;
- (ii) take the actions described under “*Application of Proceeds*” below;
- (iii) exercise any remedies of a secured party under the UCC and take any other appropriate action to protect and enforce the rights and remedies of each of Freddie Mac and the holders; and
- (iv) exercise any other rights and remedies that may be available at law or in equity.

If the Notes have been declared due and payable as described in “— *Remedies; Liquidation of Collateral*” above, the Indenture Trustee will give notice under the Credit Protection Agreement of a CPA Early Termination Event (if the Credit Protection Agreement has not yet terminated) and demand payment from Freddie Mac of any amounts due under the Credit Protection Agreement (and, if Freddie Mac fails to make any such payment, take the actions described in “*Application of Proceeds — Procedures Relating to Delayed Payments*” below). All such payments will be held in the Distribution Account for the benefit of the holders of the Notes, as their interests may appear.

In determining whether the holders of the requisite percentage of Notes have given any direction, notice or consent, Notes owned by Freddie Mac will be disregarded and deemed not to be outstanding.

***Application of Proceeds***

If an Indenture Event of Default occurs and is continuing, and the Notes have been declared due and payable and such declaration and the consequences of such Indenture Event of Default and acceleration have not been rescinded and annulled, the holders of a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges) may direct the Indenture Trustee to (a) withdraw all proceeds of Eligible Investments for the related Payment Date held in the Distribution Account, (b) liquidate all Collateral (other than Collateral which is held in the form of cash) held in the Custodian Account into cash as provided in the Indenture, (c) if it is entitled to do so under the Credit Protection Agreement, give notice of a CPA Early Termination Date to Freddie Mac (if the Credit Protection Agreement has not yet terminated) and (d) demand payment from Freddie Mac of any amounts due under the Credit Protection Agreement.

PRELIMINARY TERM SHEET

If any such direction by the holders of a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges), as applicable, has been given and carried out, then on the CPA Early Termination Date the Indenture Trustee will apply the funds on deposit in the accounts as follows:

(i) to the payment of any amounts due and payable to Freddie Mac, if any, under the Credit Protection Agreement;

(ii) to the payment of interest on the Class M-1 Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;

(iii) to the repayment to the holders of the Class M-1 Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class M-1 Notes;

(iv) to the payment of interest on the Class M-2A Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;

(v) to the repayment to the holders of the Class M-2A Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class M-2A Notes;

(vi) to the payment of interest on the Class M-2B Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;

(vii) to the repayment to the holders of the Class M-2B Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class M-2B Notes;

(viii) to the payment of interest on the Class B-1A Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;

(ix) to the repayment to the holders of the Class B-1A Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class B-1A Notes;

(x) to the payment of interest on the Class B-1B Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;

(xi) to the repayment to the holders of the Class B-1B Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class B-1B Notes;

(xii) to the payment of interest on the Class B-2A Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;

(xiii) to the repayment to the holders of the Class B-2A Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class B-2A Notes;

(xiv) to the payment of interest on the Class B-2B Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date; and

(xv) to the repayment to the holders of the Class B-2B Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class B-2B Notes.

*Procedures relating to Delayed Payments.* If the Indenture Trustee does not receive a Credit Premium Payment or Credit Protection Reimbursement Payment, as applicable, when due, (a) the Indenture Trustee will promptly notify the Issuer in writing and (b) unless within 30 days after such notice (i) such payment has been received by the Indenture Trustee, the Indenture Trustee will request Freddie Mac make such payment as soon as practicable after such request but in no event later than three business days after the date of such request. If such payment is not made within such time period, the Indenture Trustee will notify the holders of such nonpayment and will take such action as the holders of not less than a majority of the aggregate outstanding Class Principal Balance of the Original Notes (without giving effect to exchanges) shall direct in writing or, if no such direction is received, such action as the Indenture Trustee deems most effectual (in each case, which may include declaring a CPA Early Termination Date). Any such action will be without prejudice to any right to claim an Indenture Event of Default.

Investment  
Considerations

**United States Federal  
Tax Consequences**

The Trust will receive an opinion from Shearman & Sterling LLP that, although the tax characterizations are not free from doubt, the Original Class M Notes, including Notes sold by virtue of a sale of related MAC Notes, will be characterized as indebtedness for U.S. federal income tax purposes, and the Original Class B Notes, including Notes sold by virtue of a sale of related MAC Notes, will be treated in part as a limited recourse guarantee contract and in part as an interest-bearing collateral arrangement for U.S. federal income tax purposes. The Trust, Freddie Mac and each beneficial owner of a Note, by acceptance of such Note, will agree to treat such Note in the manner described above unless a change in law or administrative practice requires a Note to be treated in some other manner.

To the extent payments on the Original Class B Notes (and related MAC Notes) are treated as interest with respect to the interest-bearing collateral arrangement, such interest will be eligible for the portfolio interest exemption subject to certain exceptions and requirements. To the extent payments on the Original Class B Notes (and related MAC Notes) are treated as guarantee fees, Shearman & Sterling LLP is of the opinion that such payments generally will be foreign source for Non-U.S. Beneficial Owners that are not engaged in the conduct of a U.S. trade or business. Accordingly, Shearman & Sterling LLP is of the opinion that such payments will not be subject to U.S. withholding tax. Potential investors that are Non-U.S. Beneficial Owners should consult with their tax advisors. See “*Certain United States Federal Tax Consequences — Non-U.S. Beneficial Owners — Original Class B Notes*” in the Preliminary PPM.

In the opinion of Shearman & Sterling LLP, although the matter is not free from doubt, neither the Trust nor any portion thereof will be classified as an association taxable as a corporation, a publicly traded partnership taxable as a corporation or a taxable mortgage pool taxable as a corporation for U.S. federal income tax purposes. In addition, in the opinion of Shearman & Sterling LLP, the Trust will not be treated as engaged in the conduct a U.S. trade or business as a result of its contemplated activities. See “*Certain United States Federal Tax Consequences — Treatment of the Trust*” in the Preliminary PPM.

The MAC Notes, other than the Deemed Original Class M Notes, represent interests in the Exchangeable Notes for U.S. federal income tax purposes. The MAC Pool will be classified as a grantor trust for U.S. federal income tax purposes.

**Commodity Pool  
Operator**

Freddie Mac has not registered as a commodity pool operator with the Commodity Futures Trading Commission (the “CFTC”) in reliance on a letter dated August 25, 2014 granting no-action relief from the CFTC to Freddie Mac (the “No-Action Letter”) issued to Freddie Mac by the CFTC Division of Swap Dealer and Intermediary Oversight. Therefore, unlike a registered commodity pool operator that is operating a commodity pool without reliance on the No-Action Letter, Freddie Mac is not required to deliver a CFTC disclosure document to prospective investors, nor to provide investors with certified annual reports. It is Freddie Mac’s understanding that entities that invest in the Notes may, at the time of investment, treat the Notes as if they were issued by a pool whose operator has not registered with the CFTC as a commodity pool operator in reliance on the exemption from registration provided by CFTC Rule 4.13(a)(3) promulgated under the Commodity Exchange Act and for purposes of any fund-of-funds analysis that such entities conduct. See “*Risk Factors — Investment Factors and Risks Related to the Notes — Risks Associated with the Commodity Exchange Act*” in the Preliminary PPM. You should make your own determination, in consultation with your attorneys and other advisors, as to whether you should rely on the No-Action Letter provided to Freddie Mac for exemption from the commodity pool operator registration requirements under the Commodity Exchange Act and the regulations promulgated thereunder and you should make your own evaluation in consultation with your attorneys and other advisors as to whether your investment in the Notes changes your status or the status of persons who may be considered your operators for the purpose of the Commodity Exchange Act and the regulations promulgated thereunder, as well as with respect to any related filing, disclosure or other requirements. See “*Risk Factors – Investment Factors and Risks Related to the Notes – Risks Associated with Compliance with the No-Action Letter*” in the Preliminary PPM. A copy of the No-Action Letter will be attached to the Preliminary PPM.

PRELIMINARY TERM SHEET

**Weighted Average Life and Modeling Assumptions**

Weighted average life with respect to any Class of Notes (other than the Class M-2AI, Class M-2BI, Class M-2I, Class B-1AI, and Class B-2AI Notes) refers to the average amount of time that will elapse from the date of issuance of such Class of Notes until its balance is reduced to zero. The weighted average lives of the Notes will be influenced by, among other things, the rate at which principal of the Reference Obligations is actually paid by the related mortgagors, which may be in the form of scheduled amortization or prepayments, the timing of changes in such rate of principal payments and the timing and the rate of allocation of Tranche Write-down Amounts and Tranche Write-up Amounts to the Notes. Freddie Mac calculated the weighted average lives for each of the Class M-2AI, Class M-2BI, Class M-2I, Class B-1AI and Class B-2AI Notes assuming that a reduction in its Notional Principal Amount is a reduction in Class Principal Balance.

Prepayments on mortgage loans are commonly measured relative to a constant prepayment standard or model. The model used in this preliminary term sheet for the Reference Obligations is a Constant Prepayment Rate (or “CPR”). CPR assumes that the outstanding principal balance of a pool of mortgage loans prepays at a specified constant annual rate. In projecting monthly cashflows, this rate is converted to an equivalent monthly rate.

CPR does not purport to be either a historical description of the prepayment experience of mortgage loans or a prediction of the anticipated rate of prepayment of any mortgage loans, including Reference Obligations. The percentages of CPR in the tables below do not purport to be historical correlations of relative prepayment experience of the Reference Obligations or predictions of the anticipated relative rate of prepayment of the Reference Obligations. Variations in the prepayment experience and the principal balance of the Reference Obligations that prepay may increase or decrease the percentages of initial Class Principal Balance (and weighted average lives) shown in the following tables. Such variations may occur even if the average prepayment experience of all such Reference Obligations equals any of the specified percentages of CPR.

The Declining Balances Tables, Credit Event Sensitivity Tables, Cumulative Note Write-down Amount Tables, Yield Tables and Weighted Average Life Tables below were prepared based on the following assumptions (collectively, the “Modeling Assumptions”):

- (1) the initial Class Principal Balances or Notional Principal Amounts are as set forth in the table on pages 4 and 5;
- (2) the scheduled monthly payment for each Reference Obligation is based on its outstanding principal balance, per annum interest rate and remaining term to maturity so that it will fully amortize in amounts sufficient for the repayment thereof over its remaining term to maturity;
- (3) (a) other than with respect to the Declining Balances Tables, the Reference Obligations experience Credit Events at the indicated CER percentages, there is no lag between the related Credit Event Amounts and the application of any related Recovery Principal, the Preliminary Principal Loss Amount is equal to 25% of the Credit Event Amount; and (b) with respect to the Declining Balances Tables, the Reference Obligations do not experience any Credit Events;
- (4) the Delinquency Test is satisfied for each Payment Date;
- (5) each monthly payment of scheduled principal and interest on the Reference Obligations is timely received on the first day of each month beginning in February 2019;
- (6) principal prepayments in full on the Reference Obligations are received, together with 30 days’ interest thereon, on the last day of each month beginning in February 2019;
- (7) there are no partial principal prepayments on the Reference Obligations;

The Weighted Average Life Tables, Credit Event Sensitivity Tables, Cumulative Note Write-down Amount Tables and Yield Tables assume a constant rate of Reference Obligations becoming Credit Event Reference Obligations each month relative to the then outstanding aggregate principal balance of Reference Obligations. This credit event rate (or “CER”) does not purport to be either an historical description of the default experience of the Reference Obligations or a prediction of the anticipated rate of defaults on the Reference Obligations. The rate and extent of actual defaults experienced on the Reference Obligations are likely to differ from those assumed and may differ significantly. A rate of 1.0% CER assumes Reference Obligations become Credit Event Reference Obligations at an annual rate of 1.0% which remains in effect through the remaining lives of such Reference Obligations. Further, it is unlikely the Reference Obligations will become Credit Event Reference Obligations at any specified percentage of CER.

PRELIMINARY TERM SHEET

The Cumulative Note Write-down Amount Tables, Yield Tables and Weighted Average Life Tables with RM percentages greater than 0% have been prepared on the basis of the Modeling Assumptions described above. These RM percentages do not purport to be either a historical description of the default, modification or cure experience of the Reference Obligations or a prediction of the anticipated rate of defaults, modifications or cures of the Reference Obligations. The rate and extent of actual modifications experienced on the Reference Obligations are likely to differ from those assumed and may differ significantly. A Modification Event with a RM percentage of 2% assumes the gross coupon of the Reference Obligations is reduced by two percentage points and such Modification Event remains in effect through the remaining lives of such Reference Obligations. Further, it is unlikely the Reference Obligations will experience Modification Events at any specified percentage.

The Weighted Average Life Tables and the Declining Balances Tables have been prepared on the basis of the Modeling Assumptions described above. There will likely be discrepancies between the characteristics of the actual mortgage loans included in Reference Pool and the characteristics of the hypothetical mortgage loans assumed in preparing the Weighted Average Life Tables and the Declining Balances Tables. Any such discrepancy may have an adverse effect upon the percentages of original Class Principal Balances and initial Notional Principal Amounts outstanding set forth in the Declining Balances Tables (and the Weighted Average Lives of the Notes set forth in the Weighted Average Life Tables and the Declining Balances Tables). In addition, to the extent that the mortgage loans that actually are included in the Reference Pool have characteristics that differ from those assumed in preparing the following Declining Balances Tables, the Class Principal Balance or Notional Principal Amount, as applicable, of a Class of Notes could be reduced to zero earlier or later than indicated by the applicable Declining Balances Table.

- (1) Exchange proportions are constant proportions of the original Class Principal Balances (or original Notional Principal Amounts, if applicable) of the Exchangeable Classes or MAC Classes, as applicable. In accordance with the exchange proportions, you may exchange the Exchangeable Notes for MAC Notes, and vice versa. In addition, in the case of Combinations 2, 3, 4 and 5, in accordance with the exchange proportions, the indicated MAC Notes may further be exchanged for other MAC Notes, and vice versa. In addition, in the case of Combinations 14, 15, 16 and 17, in accordance with the exchange proportions, the indicated MAC Notes and Exchangeable Notes may be further exchanged for other MAC Notes, and vice versa.
- (2) In the event that One-Month LIBOR for any Accrual Period is less than zero, the Class Coupons on the Class M-2I, Class M-2AI, Class M-2BI, Class B-1AI and Class B-2AI Notes may be subject to downward adjustment such that the aggregate amount of interest payable to such MAC Notes and the other MAC Notes in the related Combinations would not exceed the aggregate Interest Payment Amount otherwise payable to the related Exchangeable Notes for which such Classes were exchanged (or related MAC Notes in the case of the related Combinations listed in Schedule I).
- (3) Notional Principal Amount.
- (4) Represents the maximum Class Principal Balance of the Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes and Class M-2UB Notes; provided, however, if the outstanding Class Principal Balance of the Class M-2B Notes with respect to any Payment Date is reduced to zero and the Notional Principal Amount of the Class M-2AI Notes is greater than zero, then the Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes and Class M-2UB Notes will no longer have a Class Principal Balance, but will instead have a Notional Principal Amount equal to the portion of the Class M-2AI Notes exchanged for such Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes or Class M-2UB Notes, as applicable.
- (5) The Notional Principal Amount of the MAC Class being exchanged equals the proportionate interest of the Original Class Principal Balance of the Exchangeable Class (for the avoidance of doubt, the Class M-2B Notes) being exchanged in such combination.
- (6) The Class Coupon for each of the Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes and Class M-2UB Notes with respect to any Payment Date and the related Accrual Period will be a per annum rate equal to the product of (i) a fraction, the numerator of which is the aggregate Interest Payment Amount from the portions of the Class M-2B Notes and Class M-2AI Notes that were exchanged for such Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes or Class M-2UB Notes, as applicable, and the denominator of which is (a) for so long as the Class Principal Balance of the Class M-2B Notes is greater than zero, the outstanding Class Principal Balance immediately prior to such Payment Date of such Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes or Class M-2UB Notes, as applicable, or (b) for so long as the Class Principal Balance of the Class M-2B Notes is zero and the Notional Principal Amount of the Class M-2AI Notes is greater than zero, the outstanding Notional Principal Amount immediately prior to such Payment Date of the portions of the Class M-2AI Notes that were exchanged for such Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes or Class M-2UB Notes, as applicable, and (ii) a fraction, the numerator of which is 360 and the denominator of which is the actual number of days in the related Accrual Period for such Class M-2RB Notes, Class M-2SB Notes, Class M-2TB Notes or Class M-2UB Notes, as applicable, for such Payment Date.

For purposes of the collateral stratification tables herein, the principal balance of all mortgage loans with loan ages less than or equal to six months have been rounded to the nearest \$1,000. Accordingly, aggregate balances and weighted averages based on such rounded balances reflected in the collateral stratification tables included in this Term Sheet may differ from aggregate balances and weighted averages computed using unrounded principal balances reported elsewhere in this Term Sheet.
